Introducing
the

NEW!

Low Offset System

for Automatic Safety Covers

The reduced size of our new low offset motor will provide a more aesthetically pleasing finished appearance to your poolscape.

Corrosion-Resistant

A full size stainless steel mechanism featuring a tuck under motor.

Compact

Only an 20" offset, the standard motor offset is typically 30" to 36"

Powerful

Designed for a full size safety cover, up to 20' x 50'

Safe

Clutch-driven motor, a great safety feature.

Self-Lubricating Motor Gear Box

Uses hardened steel gears to transfer the motor power.
